

Service Proposal

Prepared for Example Harbor Café & Oyster Bar

We will relaunch cafeole-example.test with a mobile-first menu, online reservations and a “Chef’s Table” booking flow, then grow local discoverability with an ongoing SEO / GEO program — so diners searching for brunch, espresso or late-night tapas find Example Harbor Café first. Every menu, hour and holiday closure will update in one place, and each page will load quickly on a phone standing in

Notes

We commit to a **25% increase in reservation requests** within the first two quarters after launch.

Diners search “brunch near me” and “tapas Reno” every weekend — once the menus are indexed, that demand lands on your reservations page instead of a competitor’s.

Your KPI dashboard shows covers, calls and bookings side by side, so you always know what the investment is producing.

Ready to move forward?

Once approved, we begin with a photography walkthrough and a kickoff call within five business days.
